LENS DESCRIPTION & SELECTION

All 3A lenses are constructed of high quality polycarbonate, meets the ANSI standard (Z87.1 - 2003) for impact resistance, and provides at least 99.0% protection against harmful UVA & UVB rays. Lens tints are not merely decorative, but enhance a worker's vision under various lighting conditions. Please remember that these are general definitions only. Consult your safety director to ensure the proper application.

Clear Lens:	General purpose that provides maximum visibility and impact protection. 91% VLT.
Grey Lens:	For outdoor applications where light and glare can cause eye strain and fatigue. 18% VLT.
Amber, Orange, Blue Lens:	Provides highest level of contrast, allowing for better definition of objects, particularly in low-light applications. 85% VLT.
Mocha Lens:	Enhances depth perception. Commonly used for medium to bright outdoor applications. Minimize glare that can cause eye strain and fatigue. 19% VLT.
In-Out Clear	The best choice for workers challenged by regular movement indoors and outdoors.
Mirror Lens:	Clear lens offers excellent optical clarity inside; light gold mirror finish reduces glare outdoors. Minimize eye strain and fatigue. 55% VLT.
Mirror Lens:	For outdoor use where sunlight and glare can cause eye strain and fatigue. Mirror coating reflects light, reducing the amount of light that passes through the lens. 16% VLT.
IR Filter Lenses:	Commonly used around welding tasks such as torch brazing, soldering, gas welding and oxygen cutting. Available in 3.0 (medium) and 5.0 (heavy).

- Utilizes ANSI-107 compliant materials
- Provides Hi-Vis impact protection for hazardous work environments
- TPR ribbing from knuckles to fingertips for impact and pinch point protection
- Reinforced palm padding for added shock absorption impact protection and added durability
- Velcro wrist closure
- Perforated finger side panels for cooling and air circulation
- Sizes: M-2XL

CUSTOM SCREEN PRINTING

WE OFFER TOP QUALITY PRINT JOBS WITHIN (AVERAGE) 7-10 BUSINESS DAY TURN AROUND TIME ONCE OUR LAYOUT IS APPROVED BY YOU OR YOUR CLIENTS.

ARTWORK

Orders requiring screen printing must be in writing. Minimum order is 24 pieces per design. Like merchandise can be mixed to achieve the minimum if the artwork and placement are the same. Please submit your artwork in native JPEG, PDF, EPS, Illustrator, or Photoshop via email to: SALES@3ASAFETY.COM

If artwork cannot be supplied, we will be able to help you to recreate a new one with a design fee that varies according to the time and complication of the artwork. Please contact your 3A sales representative for imprinting charges.

FAQS

The following are various styles of vests that we can specially produce for your needs. Please contact us if you need any specific design of vest / jacket / uniform. We can offer unbeatable quality / value for your work zone clothing.

WHAT IS ANSI?

ANSI, American National Standards Institute, and the ISEA, International Safety Equipment Association, jointly developed a standard for high-visibility clothing that is patterned after EN-471 standard used in Europe. ANSI and ISEA are not government agencies, so this standard is really a suggested standard for everyone to look at and choose to adapt on their own. Many states are adopting it, or some variation of it.

The standard covers many details used in the construction of high-visibility garments. Fabric color, labeling, fading, reflective quality and quantity, suggested style, shrinkage and cleaning are discussed and specified in the standard.

ANSI / ISEA GARMENT CLASS REQUIREMENTS

Minimum area of visible material

Requirement	ANSI / ISEA 107-2015 Class 3	ANSI / ISEA 107-2015 Class 2	ANSI / ISEA 107-2015 Public Safety Vest	ANSI / ISEA 107-2015 Class 1	ANSI / ISEA 107-2015 Class E
Background material	1000 in.2 (0.80m ²)	540 in.2 (0.50m ²)	450 in.2 (0.29m ²)	217 in.2 (0.14m ²)	465 in.2 (0.30m ²)
Retro reflective or combined performance material used in conjunction with background material	310 in.2 (0.20m ²)	201 in.2 (0.13m ²)	201 in.2 (0.13m ²)	155 in.2 (0.10m ²)	108 in.2 (0.07m ²)
Combined-performance material used without background material	N / A	N / A	N / A	310 in.2 (0.20 m ²)	N / A
Minimum width of retroreflective material	2 in (50 mm)	1.375 in (35 mm)	2 in. 1 in (25mm) or 2 in. (50 mm) (combined performance material, without background material)	2 in (50mm)	Level
Minimum number of yards per retro-reflective material width	4.3 yds. of 2 in (50mm) width	4 yds. of 1375 in. (35mm) width, or 2.8 yrd. of 2 in. (50 mm) width	2.8 yds. of 22 in. (50mm) width	4.3 yds. of 1 in. (25mm) width, or 2.15 ydr. of 2 in. (50mm) width	1.5 yds. of 2 in. (50 mm) width
Photometric performance	Level 2 or Level 1	Level 2 or Level 1	Level 2	Level 2 or Level 1	Level 2 or Level 1

EXAMPLES OF WORKERS IN CLASS I CATEGORY

Includes workers directing vehicles to parking locations, workers retrieving shopping carts, those exposed to the hazards of warehouse equipment traffic and sidewalk maintenance workers.

EXAMPLES OF WORKERS IN CLASS II CATEGORY

Includes railway, utility, and road construction workers, forestry operations, ship cargo loading, trash collection / recycling operations, school crossing guards, high volume parking and gate personnel, airport baggage handlers, law enforcement and emergency response, accident site investigators and survey crews.

EXAMPLES OF WORKERS IN CLASS III CATEGORY

Includes roadway construction personnel, utility workers, survey crews and emergency response personnel.

WHEN SHOULD I REPLACE MY HI-VIS APPAREL?

It is time to replace your Hi-Vis apparel when it has faded, torn, been damaged or it is no longer visible at 1,000 feet away.

3A Safety Groups is a leading manufacturer of high quality safety apparel and safety accessories located in Chino, California. Established in 2004, we have been providing high-visibility garments and safety products to the industry for over a decade.

Our line of safety products includes Hi-Viz safety vests and apparel, protective eyewear, instant cooling technology, LED technology, assorted headwear, gloves and many more accessories. We aim to be able to provide our customers with any personal protective equipment they could need in any season.

What sets us apart in the industry is that orders are shipped out the same day they are placed. We also pride ourselves on keeping inventory well stocked for customer needs at all times and that all our products go through rigorous quality control testing to assure that every item meets our standards and yours.
